360-degree rotating cable management rack

Overview

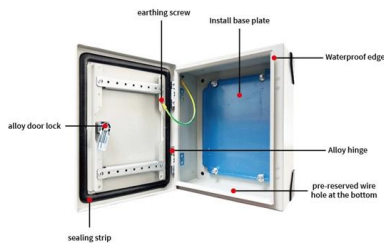

Designed to give instant 360° access to tightly-stored enclosures, the R8010 lets you effortlessly slide a fully-loaded rack out to 550mm and rotate it in any direction. The racks are built with high grade steel, structurally fortified so there's minimal flex under a heavy or full. Complete set with rotation angle: up to 380° New development with up to 40% less weight Complete set with rotation angle: up to 360° Maximum rotation angle 400° Vertical installation up to 2,000mm outer diameter Vertical installation up to 500mm outer diameter We have developed the standard based. Without a cabling management solution specifically designed to address the realities of network growth, today and tomorrow, network managers risk jeopardizing network performance, uptime and network ROI. Simplify, organize and protect The CableGuide 360 portfolio is uniquely designed to manage. 1 igus® offers twisterband for rotary applications with circular or spiral movements. Selecting the right cable carrier system can be challenging, but it's essential for. For products that will be shipped via LTL, you will be provided with a set of Accessorials to select from to provide Anixter with additional shipping considerations, such as residential delivery, inside delivery, liftgate or limited access.
