5V to 24V optocoupler module

5V to 24V optocoupler module

STAINLESS STEEL WIRE MESH

Long-lasting and durable

Comprehensive specifications

Customized non-standard products

Amazon : 5v To 24v Optocoupler

1-16 of 160 results for "5v to 24v optocoupler"
Results Check each product page for other buying options.

5V 12V 24V Relay Module Board Shield With Optocoupler Support

5V 12V 24V Relay Module Board Shield With Optocoupler Support High and Low Level Trigger (24V) : Amazon .uk: Business, Industry & Science
About this item 1. Industrial-grade relays, stable

NOYITO 4-Channel Optocoupler Photoelectric Isolator Module

Buy NOYITO 4-Channel Optocoupler Photoelectric Isolator Module Level Voltage Converter Module PLC Signal Converter Module PNP NPN to NPN (24V to 5V): Signal Converters - Amazon

PC817 4 Channel Optocoupler Isolation Module

Using four independent PC817 optocouplers, this module provides strong photoelectric isolation to

protect sensitive microcontrollers from noise,

Optocoupler Isolation Board PC817 5Vdc IN to 24V OUT

Opto isolation can be very helpful in protecting your sensitive devices such as microcontrollers and FPGAs from noise and higher voltages present when using

High-Level Optocoupler Isolation Module 8 Channel Driver 3.6-30V

High-Level Optocoupler Isolation Module 8 Channel Driver 3.6-30V Description Optocoupler Isolation Board 8 Channel Driver Photoelectric Isolated Module 817 3.6-30V Item Type: Optocoupler Isolation

Amazon : 2 Channel Relay Module

2 Channel DC 5V Relay Module with Optocoupler Control Board and Indicator Light, Development Board Accessories Relays, Support High Low Level Trigger Add to cart

24V to 5V 8-Channel Optocoupler Isolation Module PNP

Applications for signal isolation between MCUs and PLCs. Voltage level conversion of signals, or transform NPN signal into PNP signal. Limit Conversion Frequency:

4Bit Optocoupler Isolator 5V to 24V Level Voltage

4Bit Optocoupler Isolator 5V to 24V Level Voltage Converter Board PLC Signal and other Converter Module on sale, Arduino, Robotics, Raspberry Pi Zero,

4 Channel Optocoupler Isolation Module, 5V to 24V Optocoupler

Widely Used Can be used for signal isolation, PLC signal level conversion, PNP/NPN signal to NPN signal and signal level voltage converter. Easier to recognize: each channel has been equipped with

Isolators , DigiKey

Optocouplers are ideal when electrical isolation is required between control and power stages. For example, in industrial environments where PLCs or

MOD-PLC-8A, 8 Channel 24V to 5V PLC Optocoupler

8 Channel 24V to 5V PLC Optocoupler Signal Converter This 8 channel opto-coupled module converts PLC 24 volt signals to 5 volt logic levels. Specifications:

Optocoupler Isolator 4 Channel Module

Use the Maker Store's Optocoupler Isolator 4 Channel Module - 24V to 5V Level Signal Converter for converting a high voltage signal (24V) to a low voltage signal

4 Channel 5V to 24V Optocoupler Isolation Module

5V-24V Voltage Compatibility - Converts between 5V and 24V levels, bridging PLCs, sensors, and other devices with varying voltage requirements (solves cross-system signal mismatch issues).

PC817 4 Channel Optocoupler Isolation Module 3.3V 5V to 24V Converter

Using four independent PC817 optocouplers, this module provides strong photoelectric isolation to protect sensitive microcontrollers from noise,

Optocoupling devices

The optocoupler modules of the series OK1 are made for the galvanic isolation and / or amplification of digital signals with 5V TTL or 24V HTL to 500kHz. They are suitable for mounting on cap rail.

PLC Signal Level Converter 8 Channel 5V TO 24V

8 Channel 5V TO 24V Optocoupler Isolation Module PLC Signal Level Voltage Converter Board NPN Output Model: DST-1R8P-N Limit conversion frequency:

Frequency-Voltage converter module 0-1kHz to 0-10V

Precautions: The input signal can be 5V, 12V or 24V and can be connected directly, but the frequency must be maintained for at least 0.5 seconds for stabilization. The module has a response time of

Opto Isolator 24-5V Module

This is a uni-directional 24VDC to 5VDC level-shifter with complete isolation. A practical use of such a device is to use an output signal from a 24VDC system

5V 2 Channel Relay Module Optocoupler

5V 2 Channel Relay Module Optocoupler - Buy Relay Modules at best price of INR 69/piece by R And D Control Systems. Also find product list from verified suppliers with contact number , ID: 2855348763948

4Bit Optocoupler Isolator Board

Efficiently convert voltage levels with our 4Bit Optocoupler Isolator Board. Easily interface 5V and 24V signals for PLC applications. Comes with convenient DIN

PLC Automation Control Relay 2-Channel Relay Module With Optocoupler

Works with DC 5V, 12V, or 24V supply, and you can trigger it with either high or low level signals depending on your setup. It's perfect for PLC automation, industrial controls, smart home stuff, or just

5V/12V/24V 4-Channel Relay Module, Optocoupler

Keenso -- 5V/12V/24V 4-Channel Relay Module, Optocoupler Relay Module Board High & Low Trigger for Arduino Features: Adopt patch photocoupler isolation,

Relaismodul 1 Kanal 5V 12V 24V mit Optokoppler Trennung für

Relay Module 1 Channel 5V 12V 24V with Optocoupler Disconnect for Fan Control
