Are fiber optic cables worth selling

Overview

Whether you have professional-grade fiber-optic cables or want to clear your inventory of old cables you no longer need, there is a strong market for both. The global fiber optic market is thriving and is expected to expand at a CAGR of 7. These cables, originally installed to support communication networks, become obsolete due to technological advancements. Key trends include the rise of eco-friendly products, the growth of the beauty and personal care industry, and the increasing demand for high-performance materials in industrial and tech.
