Austrian High and Low Voltage Complete Equipment Manufacturer

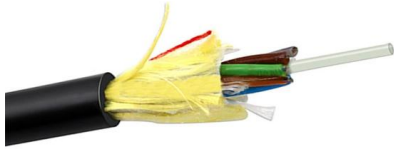

Overview

Since 1994 we are producing and developing at our headquarter in Gallspach / Austria customized high accurate test bay equipment for HV application as well as customized, fully automatic measurement and test systems for transformers and solid insulation materials. We are an international acting company, in the field of energy distribution and measurement. Lorünsener Austria GmbH specializes in the development and production of switchgear, offering solutions for high voltage applications up to 420kV AC and 850kV DC. Our customized switchgear has been manufactured and tested for almost 40 years by qualified specialists in our in-house production facility in St. Our services range from low-voltage distributors, automatic control distributors & control distributors, the modernisation of. H&MV Engineering is a leading global provider of high-voltage engineering and construction services, with expertise in data centres, renewable energy and utility sectors. For Megan McDonald, project management wasn't the plan—it was the path she grew into.
