Cable tray 90-degree downward flip-up connection to straight cable tray

Overview

- Simple connection using 2 screws on each side (optional)- Material: metal- 90° angle for cable trays 60x100- for connecting 2 cable trays- CE certification- DIN 4102-12:1998, ISO 14001:2015, E90 (fire resistance), ISO 45001:2018-Galvanised-Installation: Insert. Metal accessory for creating an outside riser in the wiring installation with the Nemaband® ladder. It allows angles of descent and height changes to be made with great ease avoiding damage to the cable routing. The most common cable tray connection methods include: Each method differs in installation time, cost, flexibility, and strength. Choosing the right one depends on project conditions, load requirements, and future maintenance needs. Eaton's submittal builder tool for B-Line series cable ladder and tray allows you to easily filter, select and download straight section, fitting and accessory submittals.
