

**Adam Tas Corridor Energy**

# **Cable tray plugging**

## Overview

---

The main cable tray connection methods include splice plates, bolted connections, quick connect systems, fish plates, clamps, and welding. maintain spacing or to keep cables in place when the tray is ect the minimum bend ra-dius for cables as they exit the bottom of the cable tray. A rung spacing of 6 to 9 inches (150 to 230 mm) is preferable when the cable tray cont d for instrumentation and control applications that require. 1 This method statement shall provide minimum guidelines to carry out the Plugging of excess cable tray support holes for Commercial buildings, plants and refineries to ensure that the work is carried out in accordance with Project Drawings and Project Specifications. For projects that are not 100 percent defined before design start, the cost of and time used in coping with continuous changes during the engineering and drafting design phases will be substantially less for cable tray wiring.
