Cable tray wiring fiber optic

Overview

Cable tray is a raceway system designed to protect and route fiber optic patch cords, multi-fiber cable assemblies and intrafacility fiber cable to and from fiber splice enclosures, fiber distribution frames and fiber optic terminal devices. Cable tray is a raceway system designed to protect and route fiber optic patch cords, multi-fiber cable assemblies and intrafacility fiber cable to and from fiber splice enclosures, fiber distribution frames and fiber optic terminal devices. The purpose of this AE Note is to outline the use of fiber optic cables in "tray rated" environments. The question arises as to what listing is required for an optical fiber cable installed in a cable tray. Our Fiber Cable Tray System is a comprehensive raceway solution for data center, enterprise, central office, and mobile switching center applications.
