Cable trays for steel structure buildings

Length:17.0mm

Small-end inner diameter:3.1mm

Large-end inner diameter:3.6mm

Overview

1- Ladder Cable Tray: Ideal for heavy-duty power distribution, these trays offer superior strength and support for large cables. Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and industrial applications. Clear cable routing - Organized and safe cable management, easy maintenance, helps prevent failures. Among the critical components that support this infrastructure are steel cable trays, which provide organized pathways for electrical wiring. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions du g conforming to ASTM A123 & ISO 1461 : m.
