On Data Center Network Architectures for Interconnecting Dual-Port

During the past decade, various novel data center network (DCN) architectures have been proposed to meet various requirements of large scale data centers. In existing works that consider

Gendered impact of the conflict in the Syrian Arab

As a consequence of the conflict, although statistics are unavailable, information collected by humanitarian agencies indicates that Syrian children

The Tale of Queen Titania (Sonic x Fairy Tail x Archer)

In the center of the ruined ballroom, surrounded by shattered glass and a three-thousand-Ring

puddle of vanilla frosting, Lucy Heartfilia looked down at the golden key in her hand. The

Design and implementation of dual port SRAM memory architecture

Dual port memory cell is the multiport memory cell that provides required access to multi-processor applications. It uses two additional pass transistors, bit line pair and a word line to provide much

Full article: Understanding Syrian Migration in Syria

The study examines the migration conditions of Syrian IDPs in a multidisciplinary approach, using primary data obtained during independent field

SafeDX* Data Center Solution Case Study

SafeDX provides IT operations outsourcing services and offers cloud services from its own data centers. SafeDX builds and operates many data centers in Central and Eastern Europe, and is capable of

SCJ_7_1

Abstract: This article begins with the underlying assumption that data and the designing of informational infrastructure is not neutral; rather, that the acts of tagging, indexing, aggregating and defining of

Dual Port SRAM: Memory Architecture

Dual Port SRAM: Memory Architecture Online The sub-blocks of the dual port memory architecture is presented in the course with a key focus on the path from

Presentation

The main objective is to support data center electrical distribution designers by providing an example of a fully designed low voltage power distribution for a data center along with its main components

Relevance of intelligent panelboards and switchboards in data centers

Equipment used in data centers such as servers, modems, storage devices, HVAC etc. are sensitive to unexpected disturbances in the power chain and require uninterrupted flow of electricity.

Syrian refugee study releases four years of panel data to

Including both refugees residing in camps and settled in host communities, it provides detailed data on refugees' economic, physical, social,

The Syrian Archive Digital Memory Project: Archiving as Testimony,

Abstract Founded in 2014, the Syrian Archive is a collective of human rights activists dedicated to curating visual documentation of human rights violations and other crimes committed during the

Disjoint paths construction algorithm in the data center network DPCell

As a dual-port server-based DCN, DPCell has excellent scalability and bisection width, enabling it to meet the demands of large-scale data storage, processing, and computation in the

3200DX Dual-Port Random Access Memory (RAM)

3200DX Dual-Port Random Access Memory (RAM) With the dramatic changes in the processing power of microprocessors and microcontrollers, peripheral components and systems have become the

The case of Syrian refugees in Türkiye: Successes, challenges, and

Understanding the case of Syrian refugees in Türkiye--the largest host country for Syrian refugees--is very important because tackling with the socioeconomic consequences of forced displacement and

Disjoint paths construction algorithm in the data center network DPCell

As a dual-port server-based DCN, DPCell has excellent scalability and bisection width, enabling it to meet the demands of large-scale data storage, processing, and computation in the

Strengthen door locks
More durable and aesthetically pleasing

Grounding screw
More aesthetically pleasing and safer

Removable hinges

DPCell: Constructing Novel Architectures of Data Center Networks on

To store and process big data, large-scale data centers are built to interconnect a huge number of servers, which is a challenging task due to the network scalability and performance. In this article, we

Syria Data Center

Reduce Investment Risk: By providing reliable data on the economic and social situation in Syria, the project will reduce perceived investment risk and encourage foreign investment.

Data for Development: Establishing a National Data Infrastructure for Post-Revolution Syria
Introduction: The success of the Syrian revolution presents a unique opportunity to rebuild the nation on a

Cisco Data Center Infrastructure 2.5 Design Guide

Data Center Multi-Tier r Design Overview The multi-tier model is the most common model used in the enterprise today. This design consists primarily

DPCell: Constructing Novel Architectures of Data Center Networks on

In this article, we study the underlying common principles behind the existing data center network architectures on dual-port servers. We find that the existing architectures hardly achieve both large

R& M Data Center Handbook

Construction of an entirely new data center, or expansion of the existing one or Outsourcing (housing, hosting, managed services, cloud services) or Some alternative data center concept

A Guide to Data Center Construction

Data center construction is in high demand with AI and data advances. Find out everything you need to know in our comprehensive guide.

Dual-ported RAM

A simple dual-port RAM (usually called two-port RAM or 1R1W RAM) allows only read access through one of the ports and write access through the other, in which case the same memory location cannot

A high-density dual-port memory cell operation and array architecture

This architecture offers a solution to the fundamental limitations in the 2Tr-1C dual-port memory cell, and it is easily applicable to dual-port memory cores in ASIC environments. An analysis of the memory

Constructing dual-CISTs of DCell data center networks

In this paper, we provide a recursive construction for building a dual-CIST on a k -dimensional DCell with n -port switches for $k \geq 0$ and $n \geq 6$. Intuitively, we think that a route can

A Guide to Data Center Construction
