Circular Optical Cable Connector Box Accessories

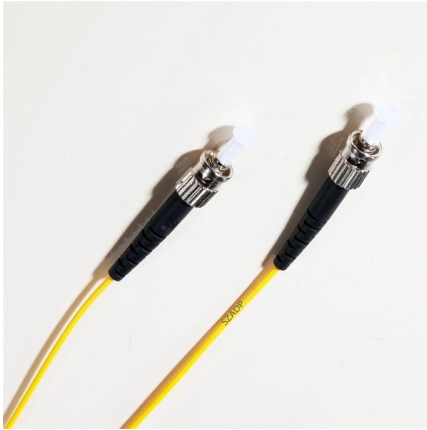

Overview

There are a wide range of circular connector accessories available, these include colour coding rings, clamps, strain reliefs spacers and many more. The available accessory types are adapter, adjuster, alignment disc, anchor, back shell, blanking plug, cable clamp, cable grip, cable gland, cable seal, cap, coding ring, compression nut, EMI gasket, faceplate. Colour coding rings are coloured rings available individually or in packs of assorted colours that help separate and identify certain cables using. A circular connector is a cylindrical, multi-pin electrical connector that contains contacts that power electrical devices, transmit data, or transmit electrical signals. More than 70 years of world-renowned expertise, know-how and pioneering innovation in harsh-environment connectivity technologies such as ruggedness and endurance, sealing and hermeticity, miniaturization and high density, and faultless data transmission.
