Configuring AC Access for Huijue Switches

Configuring AC Access for Huijue Switches

(Native AC) Configuration Guide

This document describes how to configure the WLAN feature. The S5731-H, S5731S-H, S5732-H, S6730S-H and S6730-H are referred to as WLAN Access Controllers (WLAN ACs) in this document

Configuring APs to Join a Native WAC (Core Switch)

As shown in Figure 4-9, in the centralized gateway solution, if VXLAN is deployed across core and access layers on the fabric and the core switch functions as a native WAC, an AP joins the

S2700, S3700, S5700, and S6700 Series Switches Quick Start Guide

This guide describes how to install S2700, S3700, S5700, and S6700 series switches. It also explains how to log in to your switch for the first time. The installation, cable connection, and login methods for
