

# **Cost of connecting the distribution box to the electricity meter**

## **Product Catalog**

## Overview

---

The cost to replace wire from a meter to a breaker box is about \$225 to \$500, including the cost of new wires and professional installation. If you're looking to get a new electricity supply connected, there are three main areas you'll need to consider: DNO (local distribution network operator): You'll need to contact your local DNO to get a power service cable installed to your property. We know that you would like to have a clearer understanding of how much it will cost and how long it will take to install a new electricity connection. Homeowners typically pay to connect electricity based on service size, distance from the grid, and required upgrades. Main cost drivers include trenching, meter and permit fees, labor, and any utility company charges.
