# **Detailed breakdown of household electrical distribution box prices**

## Overview

---

The price for a new electrical box typically combines panel cost, labor, and permitting. In practice, the total project range often falls between about \$1,500 and \$6,500 for a standard residential panel upgrade, with higher costs for larger or multi-branch systems. Whether you are a seasoned procurement officer or a first-time project manager, understanding the distribution box market is about more than just a price tag; it is about safety, scalability, and finding that sweet spot between "cheap" and "reliable. Typical residential installations or replacements range from \$600 - \$2,000 (most between \$1,000 - \$1,400), with 200A-rated and outdoor-weatherproof units positioned at the higher end.
