Dimensions of a three-circuit distribution box

Overview

Our mission is to meet customer's expectations by providing satisfaction through cost, quality, service, delivery and continuous improvement. ABB Mini Center Compact distribution board is the basis for development and growth in meeting all the demands for a successful future in residential. This box segregates switches from other components to avoid negative interferences. Pole or wall mounted distribution boxes for aerial bundled conductors, open wire conductor overhead line distribution systems or underground supply cables. Note: The equipment described in this data sheet must be installed by suitably qualified personnel according to applicable Local / National. These Distribution Cabinets are to be outdoor type and to be fabricated out of 2 mm GI sheet steel.
