Distribution box model hdb

Overview

HDT's Utility Distribution Boxes (UDBs) provide safe power distribution in applications requiring feed-thru to larger areas. In each model, the three-phase power is broken into three 120 volt circuits within the box. HDB-B series 3 pole distribution box is widely used in the family, high building, house, station, port, airport, commercial house, hospital, cinema, enterprises and so on occasions. The distribution box (DB box) helps safely and efficiently distribute electrical power.
