# Distribution box switch B2

## Overview

---

Siemens B-2 bypass disconnect switches and assemblies offer versatile solutions for recloser and regulator bypassing. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. But what exactly is a power distribution box, and why is it so essential in our daily lives?

The DB panel board controls the flow of electricity. Our products range includes simple flush-mounted switch boxes to surface-mounted boxes for indoor use, as well as high-end IP65 junction boxes for use in wet areas. Kopp also offers accessories such as spring covers, screws for switch boxes, and cavity wall switch boxes and plaster adjustment.
