Fiber Optic Cable Hand

Overview

Maximize efficiency in the field with Fiber Optic Hand Tools, such as cleavers, strippers, slitters, scissors, fusion splicers, and cleaners. These tools are manufactured specifically for working with fiber optic cable and designed to achieve accurate results. Designed for professional technicians and installers, these manual tools provide the precision and reliability needed for tasks such as stripping fiber coatings, crimping connectors. Fiber optic cable networks depend upon fragile components that must be installed and maintained properly in order to remain sufficient.
