Fiber Optic Cable Pulling and Reeling Machine

Overview

A modern cable puller machine makes pulling heavy cables faster, safer, and more efficient than ever. Whether you're working on power lines, fiber optic installations, or underground infrastructure, this equipment reduces manual labor and speeds up the entire cable laying process. If you are looking for safety, improved profitability and lower risk choose our RST Series of. Thorne & Derrick International distribute the most extensive range of Cable Pulling & Cable Laying Equipment to enable the installation of low, medium and high voltage power cables into underground trench or duct - products also supplied for fibre optic blowing, subsea trenching, offshore umbilical. Only the Condux puller can offer load cell torque input for the most accurate tension measuring available. Unlike most hydraulic measuring systems, this system is not affected by changes in.
