Fiber Optics East Asia

Overview

Countries such as China, India, Japan, and South Korea are leading the adoption of fiber-to-the-home (FTTH) and fiber-to-the-building (FTTB) networks to meet the surging need for reliable and fast connectivity. The Submarine Cable Map is a free and regularly updated resource from TeleGeography. Government-led broadband projects across markets in the Asia-Pacific region have reaped the fruits of success in recent years as optical fiber networks reach most households. The Asia Pacific fiber optics industry is expanding rapidly due to the increasing demand for high-speed internet and advanced telecommunication networks.
