Fiber optic cable laid in Peru

Overview

In July 2019, a massive new fibre-optic network was announced in Peru, promising to provide internet access to nearly 1 million residents in the Amazon and the Andes, and greatly improve connectivity in the country's remote rural areas. The company specializes in high-speed internet and cable TV services, focusing on a network built entirely on fiber optic technology to enhance service quality. They offer 100% fiber optic internet, promising faster connections and numerous benefits for customers. LIMA, Peru & NEW YORK - (BUSINESS WIRE)- KKR, Telefónica Hispanoamérica, and Entel today announced agreements under which KKR will acquire a majority interest in PangeaCo and the existing fiber optic networks of Telefónica del Perú and Entel Perú to build Perú's first nationwide open access. The Peruvian optical fiber cables market expanded markedly to \$X in 2024, with an increase of X% against the previous year.
