Fiber optic cable type 1 2

Overview

2mm Fiber Optic Cables are perfect for ultra high density environments, where space is a premium. Reduced diameter helps to reduce overcrowding in racks and trays, therefore providing improved airflow and ultimately enhanced performance. There are a wide range of fiber optic cable types, styles, and with different connectors on each end. The Optronics fibre optic cable range includes simplex, duplex and flat ribbon patchcords, tight buffered, single loose tube and multi-loose tube distribution cables for internal and external applications as well as many variations of armoured, aerial, rodent resistant and water blocked cables.
