2026 Global Data Center Outlook

Nearly 100 GW of new data centers will be added between 2026 and 2030, doubling global capacity. The global data center sector will likely expand at

JCI, AMT, VRT: Key Stocks Behind the AI Data Center

These three infrastructure stocks offer investors exposure to the accelerating buildout of AI-ready data centers by the major hyperscalers

EdgeConneX and Lambda To Build AI Factory In Chicago With

In addition, EdgeConneX designed and operates two air-cooled sites for Lambda, in Atlanta (ATL02) and Chicago. EdgeConneX announces it is building 30+ Megawatts of state-of-the

Edge Data Center Market Size, Share , Industry Report,

The large facility segment dominated the market and accounted for the largest revenue share in

2025, as hyperscale campuses and regional edge hubs offer

7 Best Data Center Stocks, ETFs and REITs to Buy

Not just any data center stock, exchange-traded fund or real estate investment trust will do, however. Here are seven of the best data center stocks, ETFs and REITs to buy now:

The Challenge: Future-Proofing High-Density AI Data

As artificial intelligence (AI) and high-performance computing (HPC) design criteria continue to evolve, today's data center operators face a new challenge:

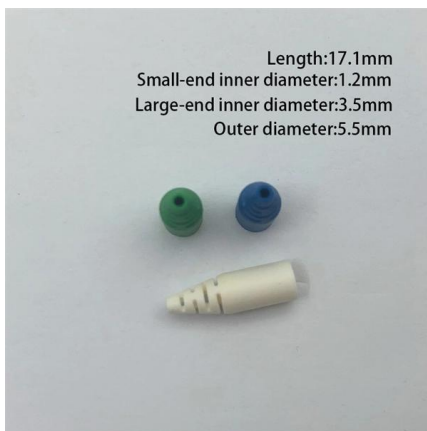

Schneider Electric Launches New Data Center Solutions

Evolving its EcoStruxure(TM) Data Center Solutions portfolio, Schneider Electric introduced a Prefabricated Modular EcoStruxure Pod Data Center

Edge Data Center Market

This article details how data center stakeholders across the industry can keep up with the digital transformation by adopting innovative designs that

Schneider Electric launches new data center solutions to

Evolving its EcoStruxure(TM) Data Center Solutions portfolio, Schneider Electric introduced a Prefabricated Modular EcoStruxure Pod Data Center

Global Data Center Solutions , EdgeConnex

With a strong commitment to sustainability, we excel in creating build-to-suit data centers that align with unique customer specifications, supporting workloads from

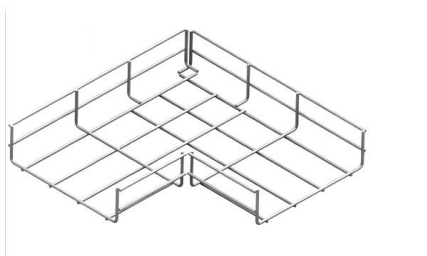

Infinium Launches Infinium Edge Platform for High-Density AI Data

Infinium announced the launch of Infinium Edge, an advanced data center infrastructure platform designed to enable high-density artificial intelligence (AI) and high-performance computing

EdgeConneX & Lambda Build AI Factory in Chicago

Discover how EdgeConneX and Lambda are revolutionizing AI infrastructure with over 30 MW of high-density data centers in Chicago and Atlanta.

Global Data Center Trends 2025

Limited power availability remains the prime inhibitor of global data center growth in certain core hub markets, leading to

How to Successfully Introduce High-Density Solutions in

Designing flexible, high-density data centers for future demands As DC usage evolves operators face growing demands for scalability, efficiency, and

Four Elements to Consider for High-Density Data Centers

Four Elements to Consider for High-Density Data Centers Speed to market, flexibility, and scalability have become mission-critical for hyperscale platforms and large enterprises when

Schneider Electric data center solutions enable high-density AI

Schneider Electric launches data center solutions to meet challenges of high-density AI applications Innovative prefabricated data center architecture provides critical IT infrastructure for

Mesh door/glass door optional

Sp-601 glass door

Sp-602 mesh door

HostDime's High Density Data Centers Support AI

HostDime's high density data centers provide unparalleled support for AI/ML/HPC workloads, boasting power density of up to 100kW per rack.

7 Best Data Center Stocks, ETFs and REITs to Buy

Demand for AI is driving a data center boom. These stocks, ETFs and REITs are positioned to benefit from it.

OSS lands \$2M deal for high-density data center AI

OSS wins \$2M deal with leading AI infrastructure firm, providing high-density PCIe solutions for GenAI, ML, and HPC applications in CDI & data centers.

ITPro Today, Network Computing, IoT World Today combine

Together, we are committed to delivering the same high-quality content and insights that have been the hallmark of ITPro Today, Network Computing, and IoT World Today.

Power Densities Edge Higher, But AI Could Accelerate

Data center rack density is trending higher, prompted by growing adoption of powerful hardware to support artificial intelligence applications. It's an ongoing

Infinium Launches Infinium Edge(TM) Platform for High

Infinium Edge Immersion Fluids(TM), a new class of custom-engineered dielectric fluids specially made for AI and HPC data centers, are designed to

High-Density Data Centers , Kontena

This project demonstrates Kontena's ability to manage diverse aspects of high-density data center projects, ranging from business planning and concept
