

Adam Tas Corridor Energy

High-density modular data center in Albania

Overview

Israeli company ADC will build Albania's first data center in Tirana with a €100 million investment, boosting green energy and digital infrastructure. We currently have 5 data centers listed, from 1 markets in Albania (Republic of Albania). Save the trouble of contacting the providers yourself, check out our Quote Service. With numerous experience and a wide range of solutions from the world's largest vendors we provide you with an optimal and independent data center tailored to address your requirements. This can be done using traditional or software-defined concepts, as well as in the form of a private or hybrid. Our approach focuses on meticulous planning and execution to meet construction schedules efficiently. By deploying the Huawei FusionModule 800, we achieved a space footprint reduction of over 50% compared to the industry reference of 7 m² per rack, while maintaining full redundancy, operational resilience and future expandability.

High-density modular data center in Albania

Vertiv launches high-density prefabricated modular data

Vertiv MegaMod CoolChip solution integrates best-in-class technologies to deliver turnkey AI critical digital infrastructure up to 50% faster

Vertiv Launches High-Density Prefabricated Modular Data Center

Vertiv(TM) MegaMod(TM) CoolChip solution integrates best-in-class technologies, including high-density liquid cooling, to deliver turnkey AI critical digital infrastructure up to 50% faster than

Arista Platforms 400GbE

Arista delivers the most efficient, reliable and high performance Universal Cloud Network architectures based on 10G, 25G, 40G, 50G, 100G and 400G platforms delivered with an extensible operating

Vertiv launches high-density prefabricated modular data center solution

Vertiv MegaMod CoolChip solution integrates

best-in-class technologies to deliver turnkey AI critical digital infrastructure up to 50% faster than onsite build. Vertiv has launched the

Cloud and Datacenter Infrastructures

Axians delivers advanced Data Center solutions in Albania - empowering businesses with reliable cloud infrastructure, scalability, and top-tier performance.

Vertiv launches high-density prefabricated modular data

Vertiv MegaMod CoolChip solution integrates best-in-class technologies, including high-density liquid cooling, to deliver turnkey AI critical

Vertiv launches high density prefabricated modular data

Vertiv has launched a high-density modular data center offering for artificial intelligence (AI). Dubbed the MegaMod CoolChip, the company said the

Fluence , A Siemens and AES Company

Meet Smartstack(TM), the High-Density AC-based Energy Storage Platform with a Breakthrough Modular Design Backed by Fluence's industry-leading project

Vertiv launches high-density prefabricated modular data center

Key features of the solution include: High-density compute: MegaMod(TM) CoolChip supports IT systems from the customer's chosen AI compute provider, including accelerated

Latest Data Center Facility Projects in Albania (2025)

Search all the latest and upcoming data center facility projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Albania with our comprehensive online database.

Data Center Knowledge , Navigating the Future of Data

The leading online source of daily news and analysis about the data center industry, including hardware, software, data center networking, and more.

Home , CyrusOne

CyrusOne designs, builds, and operates sophisticated digital infrastructure for the world's leading organizations. Our global

Vertiv Launches High-Density Prefabricated Modular Data Center

Vertiv MegaMod CoolChip solution integrates best-in-class technologies, including high-density liquid cooling, to deliver turnkey AI critical digital infrastructure up to 50% faster than onsite

Tirana Data Centers

Below you will find locations of 5 data centers in Tirana, Albania. To find other data center locations and colocation, cloud or connectivity providers in Albania, please click [here](#).

The Internet Infrastructure in Albania: Data Centers, Domains, and

In Albania, the focus on building localized infrastructure has allowed for lower latency, improved data protection, and better accessibility for businesses targeting the Balkan region and beyond.

The next big shifts in AI workloads and hyperscaler

AI workloads are reshaping data center economics, power planning, and leasing decisions. Their influence is already evident across most new builds

Israel's ADC to Build Albania's First Data Center in

Israeli company ADC will build Albania's first data center in Tirana with a EUR100 million investment, boosting green energy and digital infrastructure.

Utility Modular Data Center - Durrës Albania , Layer 1

Modular data center for a utility organization in Durrës, based on Huawei FusionModule 800, achieving over 50% space reduction with N+1 power and cooling.

Data Center Infrastructure Design, Build & Maintenance

AI and HPC workloads are pushing data centers beyond traditional cooling and power limits. Compu Dynamics delivers end-to-end design, build, and

Building Grid-Ready Sites for High-Density Compute

Giga Energy builds modular data center sites for AI, flexible loads, utilities, and bitcoin mining. End-to-end site origination, manufacturing, construction, and operations.

Data Center Construction Management Albania AL

Our team of expert consultants in Albania provides comprehensive guidance on data center building, ensuring that each project meets the specific data center construction requirements of our clients.

Data Centers in Albania, EMEA

Need help finding the right data center? Share your requirements and our experts will provide a complimentary, tailored solution that fits your needs and your budget.

Emerging Technology News

ETN news is the leading magazine which covers latest energy storage news, renewable energy news, latest hydrogen news and much more. This magazine is

Albania Data Centers

Data Centers in Albania - List of Colocation and Cloud data facilities in Albania. Get Quotes and find Specs, Photos, Videos etc.

From DGX to DSX -- NVIDIA's Secret Weapon Is \$IREN DGX was

Liquid cooling becomes a central requirement. IREN already possesses high-density rack deployment experience through the Horizon project. Its Chief Innovation Officer is one of the most

AI data center growth: Meeting the demand , McKinsey

Demand for AI-ready capacity is the main driver of this potential deficit--as it must provide the high computational power and power density

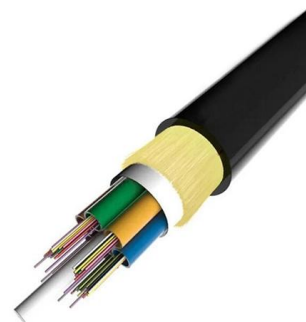

Data Centers in Albania

Explore top data centers in Albania, offering advanced infrastructure, robust security, and reliable connectivity for seamless business operations.

Vertiv Launches High-Density Prefabricated Modular

Building on Vertiv's experience developing other prefabricated modular data centers, MegaMod CoolChip is designed to address the specific
