# **How much does a home electrical distribution box module cost**

## Overview

---

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity.

Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings.

This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. You might find a small plastic unit for the price of a fancy dinner, or an industrial-grade stainless steel beast that costs as much as a compact car. Expect these price points when budgeting for 2025 installations: Quality power cables make or break your electrical system.
