# How to cut cable tray sleeves

## Overview

---

In the Oglænd System Cutting Guideline you can easily find out what the optimal cutting lengths/intervals are for all modular products. However, every installation is unique, and sometimes it becomes necessary to cut a cable tray to fit specific spaces or to connect different sections. Stainless steel cable trays are preferred in many applications due to their durability, strength, and resistance to harsh environments. See product cut sheet what are the best methods for cutting these with a power tool as with a hacksaw with every cut it just goes off the line Hacksaw for the trunking (it's just practice).
