Hungary manufactures optical module factories

Overview

Unoptix specializes in high-quality optical transceivers and accessories for the IT market, offering cost-effective solutions that enhance network performance while reducing total ownership costs. Comlink Electronics, founded in 1999, provides connection solutions for telecom, computer, portable device, home entertainment, auto, and medical equipment. MycoNest is a modular, fully biodegradable habitat system made from dried mycelium composites, designed to restore biodiversity in infrastructure-dominated environments such as utility-scale solar parks, fenced energy sites, and degraded land. Aron SIPOS An increasing demand for eyeglass lenses for Szatmár's target markets in the UK and Eastern Europe led to the decision to take the step towards an automated production line. 27 new Modulo machines with small footprint complement the existing production line to manufacture more than 19,000 lenses.

Hungary manufactures optical module factories
