Idm Micro-Module Data Center

Overview

IDM integrates cabinets, power supply and distribution system, cooling system, monitoring system, cabling system. Kstar focused on the R&D and manufacturing of UPS, Precision Cooling and MDC (Modular Data Center), Battery, PV, ESS and EV Charger. 8" (400x240) touch screen delivers incredible color and quickly serves up photos, videos, album artwork and more. Easily navigate your media library with the tap of a finger or via traditional button controls if you prefer. As an All-In-One solution, IDM features quick deployment, energy Efficiency, smart management, safety and reliability. The continuous power supply with back up battery guarantees stable IT equipment operation. Highly integrated and flexible installed data center infrastructure for rapid deployment and efficient operation and maintenance. Inspur intelligent micro module product adopt factory prefabrication production and on-site modular installation technology for rapid deployment and flexible expansion.
