TRANSMISSION AND DISTRIBUTION

The transmission and distribution system forms the backbone of electricity supply in Mauritius, ensuring reliable power delivery from generation facilities to customers across the island.

Distribution Boxes Pool

Also known as a DB, a distribution board has one function - to safely gather all of the electrics inside. It also needs to be weatherproof and able to connect with the swimming pool light and the heat pump.

LAWS AND REGULATIONS

The Central Electricity Board (CEB) is a parastatal body wholly owned by the Government of Mauritius and operating under the aegis of the Ministry of Energy and Public Utilities.

CEB: GRID INFRASTRUCTURE

The grid infrastructure is regularly upgraded and expanded to: Accommodate increasing electricity demand. Enhance reliability and resilience, especially in urban and high-density areas.
