# **Is it okay to install a network server rack in a room**

## Overview

---

Any reason why I should NOT put a wall-mount network rack on a shelf within a cabinet?

I'm looking to build a network/server cabinet - but I'll be building it within in-built cabinetry (around 600mm depth). But this means internal space is actually going to be probably closer to 550mm which means. The only space available where we can install the rack with servers and network gear (4 post rack) is inside the electrical room. The rack includes 2 routers, 1 firewall, patch panels, switches, PBX, WAN load balancer, 2 Synology rackstations servers, 2 rack UPS, 2 PDU, NVR, and 1 ATS. The server room is where essential business data, cloud applications, and internal networks are managed securely.
