KVM Switch 16 Inputs 2 Outputs

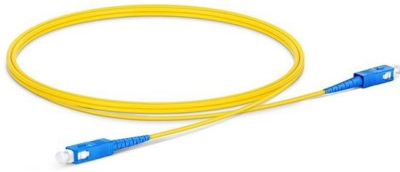

Overview

Its 2 VGA outputs, with one cleverly placed on the front panel, offer great convenience for maintenance outside server rooms. The KN1116va is an IP-based KVM control unit, with dual IP / dual power functionality, serial console access and Virtual Media support, that allows both local and remote operators to monitor and access multiple servers from a single console. ATEN KL1516A LCD KVM Switch features independently retractable, dual slide 17" or 19" LED-backlit LCD monitor and keyboard with built-in touchpad. The KVM-1631 is a future-proof bridge for growing enterprises, offering 16 ports of high-resolution (1920 x 1440) control. It features a dedicated expansion slot for an optional IP module, allowing you to upgrade to KVM-over-IP for remote cloud-access at any time.
