# **Large fiber optic communication enterprises**

## Overview

---

The largest fiber optic companies in the world power global connectivity, enabling 5G, AI, and cloud networks. Leaders like Corning, YOFC, Fujikura, and Prysmian drive innovation and scale the infrastructure behind the digital economy. They are also at the forefront of research and development, seeking new ways to enhance the efficiency and reduce the costs of fiber optic. Fibre networks are the backbone of the digital economy, powering 5G, AI, IoT and edge computing while shaping connectivity, security and global competitive Fibre optic networks have become the backbone of the global digital economy, powering 5G, edge computing, AI and the Internet of Things. According to a research report published by Spherical Insights & Consulting, The Global Fiber Optics Market Size is projected To Grow from USD 9. 63% during the forecast period 2025-2035 Description According to a research report.
