## Overview

---

For North American distribution box compliance, you need UL 1741 6 certification for solar applications, conformity to NEC Article 690 7 requirements, and NEMA enclosure ratings 8 (minimum NEMA 3R for outdoor use). With the aim to contribute to the sustainability of packaging, the FEFCO Corrugated Packaging Recyclability Guidelines (update 2025) provide the industry with a practical set of tools to implement in the recycling of paper and board to ensure the optimal use of natural resources and minimise their. Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC (Text with EEA relevance) PE/73/2024/REV/1 OJ L, 2025/40, 22. This European adoption of ISO 6591-1:2026 establishes a unified approach to determining the dimensions of empty paper sacks, ensuring consistency and comparability in manufacturing, procurement, and logistics. ASTM's paper and packaging standards are instrumental in the evaluation and testing of the physical, mechanical, and chemical properties of various pulp, paper, and paperboard materials that are processed primarily to make containers, shipping boxes and parcels, and other packaging and labeling. The new regulation will come into force after publication in the Official Journal of the EU, which is expected at. The European Union, United States, China, Japan, and India each enforce distinct standards reflecting regional priorities and consumer protection approaches.
