# **MTP optical cable diameter**

## Overview

---

\* Please kindly note that the cable diameter of standard single MTP®/MPO cable is 3.0mm, and as for cables with different bundles, the trunk diameter is different, as shown below. Components within the housing enable connection to cables from ribbon fibres to 5. With non-pinned MTP connectors on both ends, these fiber trunk cable assemblies are designed to interface with the EDGE solutions or Plug & Play™ systems modules.
