Morocco fiber optic cable laying

Overview

Arinaga, Canary Islands, Spain (Ports Europe) August 21, 2025 - The laying of a 49 million euro underwater fibre optic cable, linking Morocco and Spain's Canary Islands, will begin by the end of 2025. Morocco has taken a significant step toward strengthening its digital infrastructure with FBR Cables' launch of a major new industrial platform aimed at boosting domestic fiber optic cable production. FBR CABLES designs and manufactures high-performance fibre optic cables in Morocco for operators, integrators and FTTH projects. Backed by advanced production capabilities, we deliver certified quality, controlled lead times and local technical support.
