Multi-interface fusion splice tray

Multi-interface fusion splice tray

AEN 61

Fusion splices protected with silicone sealant are often called RTV fusion splices. Heat-shrink fusion splices may be accomplished one fiber pair at a time (single fiber heat-shrink fusion, or

24 Fiber Fusion Splice Tray

24 Fiber Fusion Splice Tray Features All Aluminum Construction Stud or Velcro Mounting Integrated Wire Tie Features for Fiber Management

Splice-Trays

These aluminum trays come with a clear, snap-on polycarbonate cover and can be stacked for high-density applications. The standard tray holds up to 24 splices.

1U Fusion splice tray kit (max. 24-fiber)

This 19-HD fusion splice tray kit is delivered with one complete splice tray unit and accessories of

one tray cover. Two fibre management half-spools, two fusion splice holders, twenty-four heat shrink

Length:14.5mm
Small-end inner diameter:2.0mm
Large-end inner diameter:3.5mm
Outer diameter:5.2mm

Splice Trays

RTV fusion splice trays contain an organizer that seals bare splices with the use of RTV, resulting in higher splice density than using heat-shrink fusion splice protectors.

Closures / Terminals: In-Line Splice Enclosures

View Multilink's range of in-line splice enclosures! Products include splice trays, adapters, fiber optic splice enclosures and more!

Various specifications optional

12

Leviton Injection-Molded Plastic Splice Trays provide protection and slack management of heat-shrink fusion spliced fibers (up to 12 or 24 fibers) inside of a fiber enclosure.

12 Fiber Optic Splice Tray , Fiber Splice Tray

This Multilink Fiber Optic Splice Tray safely routes and stores 12 fusion spliced fiber. Made in the USA

FST Series Fiber Splice Tray , Tii Technologies

FST Series stackable fiber splice trays are ideally suited for patch and splice combination panels and splice panels. They are designed with three point self

Splice Tray, Mass Fusion Splices or Heat-shrink Fusion Splices

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered for use with indoor

Fusion Splice Tray, 12 Position, Plastic

Product Description Prevent the dreaded micro bend with this fusion fiber splice tray. Lightweight, compact, and stackable this 12 position fusion splice tray will fit our

24 Fiber, Fusion Splice Tray

A fusion splice tray can hold up to 24 splices & possibly allow splice trays to be stacked together for use with higher strand number fiber optic cables.

Splice Trays

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered

M67-110 , Splice Tray, Mass Fusion Splices or Heat-shrink Fusion

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered for use with indoor

Universal Splice/Component Tray

The universal splice component tray from ANS is a versatile tray designed to accept modules with unique, flexible holders that provide placement for a wide variety of

Universal Splice Tray (Mechanical and Fusion)

The Universal Splice Tray is a configurable enclosure for both mechanical and fusion splices. The tray is supplied with two fusion splice sleeves and two mechanical

Universal Splice / Component Tray

The versatile tray is designed to accept modules with unique flexible holders that provide placement for a wide variety of fusion and mechanical splice sleeves as

Product Spec Sheet M67-110

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered

Fiber Splice Tray, Fiber Optic Tray , Primus Cable

Fiber Optic Splice Tray In today's mission critical environment, it's imperative that the architecture of your fiber optic network is defended. Fiber optic splice trays not only provide physical security, but also

Splice Tray Holder Kit

Sumitomo Electric Lightwave's newest product to the Quantum Fusion Splicer's line of accessories is the splice tray holder kit. Built to provide easy installations in

Fiber Fusion Splice Tray DataSheet , FS

Fiber Fusion Splice Tray Fiber optic splice trays are designed to provide a location to store and to protect the fiber cables and the splices. Each tray provides space for mounting fiber splice protectors

Product Spec Sheet MFT-124-S2

MFT-124-S2 Corning splice trays are suited to protect and manage fiber splices at field-, transition- and end-splice locations. Each splice tray design is specially designed for use with

Splice Tray, Heat-shrink Fusion Splices , Corning

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered for use with indoor
