## Overview

---

SASO is the only Saudi organization responsible for setting national standards for commodities and products, measurements, testing methods, meteorological symbols and terminology, commodity definitions, safety measures, and environmental testing, as well as other requirements. This service allows you to HAVE an ON-LINE purchase of Gulf Standards or Technical Regulations. Saudi Arabia is a member of the Gulf Cooperation Council (GCC) and the GCC policy is oriented to create a common set of standards. The Saudi Standards, Metrology and Quality Organization (SASO) was established pursuant to the Royal Decree No. M/10 dated 03/03/1392 H (17/4/1972 G) as a body of judicial personality and of an independent budget and obtained ISO membership the same year.
