Optical Cable ADSS Operation Guide

Overview

This guide provides general recommendations for the selection of methods, equipment, and tools for the stringing of ADSS (All Dielectric Self-supporting) fiber optic cables including short and Long Span ADSS cables. Since there are numerous practices which may be utilized, Prysmian has tested and determined that the practices described herein are effective and efficient. The installation methods for ADSS cables are essentially the same as those used for. This Installation Manual is a recommendatory installation document provided by HANGZHOU ZION COMMUNICATION CO.
