Price of replacing armored optical cables

Overview

Prices vary based on the length of cable needed, installation method (aerial or underground), and labor rates in your area. Expect to pay \$1 to \$12 per linear foot, depending on project complexity and materials. Buying fiber optic installation services involves several cost components, with total price influenced by length, location, and access. Whether you're planning a national fiber rollout or sourcing cables for enterprise infrastructure, understanding how fiber optic cable pricing works can help you budget more effectively and make better. Every optical fiber cable project faces the same critical question: should you choose an armored cable or a non-armored one?

At first glance, the choice may look simple.
