Russian Standard Distribution Box Model List

Overview

This document provides specifications for various distribution boxes including dimensions, mounting sizes, and number of ways. At present, the world's most comprehensive professional source of patent information is the commercial database of the French company Questel (in English), which. Our databases represent the world's largest collection of complete texts of Russian technical regulations and standards, including GOSTs, NPBs, RDs, SNIPs and many others, the majority of which are available in electronic format (in the original language). Distribution boxes are distinguished by their exquisite design and functionality, the new FIXCONNECT terminal technology for PEN conductors has been repeatedly noted at many International and Russian exhibitions and has no analogues in our market.

Russian Standard Distribution Box Model List
