# **Screw cable tray accessories**

## Overview

---

In addition to the covers, optional accessories in various materials and coatings are available to supplement the cable support system, e. gutter connectors, connecting plates, separating strips and protective rings. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway.
