Stripping the fiber optic cable from the broadcasting company

Overview

In this informative guide, we'll walk you through the step-by-step process of stripping and preparing fibre optic cable for termination, covering techniques, tools, and best practices to help you achieve successful terminations in your fibre optic installations. In this instructional video, Bob Licari, Test Equipment Product Manager, demonstrates a simple way to strip optical fiber. Marcel Buijs, EMEA Business Development, Technical Sales, Fiber Optic Center, Inc. Properly stripping the cable and preparing the fibre ends ensures a clean and secure connection, leading to optimal signal transmission and network performance. Optimal performance can be achieved by following the correct process for termination of the fiber circuit—a task which requires the use of a wide range of.
