Swedish Optical Cable and Wire Equipment

Overview

We supply state-of-the-art automatic and semi-automatic wire processing equipment which is designed to cut, strip, crimp, test, mark, tape and bundle wire and cable of all types, including single conductor wire, coaxial, multi-conductor, flat, flexible and fiber. We deliver lab-tested, vendor-compatible transceivers with European support, global delivery, and no OEM markup. Nexans' range of fiber optic cables includes products intended for data and telecommunications as well as industrial applications. Robust cables for national networks, city networks, rural networks and property networks, for installation indoors, outdoors, in ground pipes, in air systems and in. The Swedish Microwave fiber cables are made as ruggedized cables with narrow bend radius and very good performance to fit together with all our RF over Fiber products. Our main business consists of supplying production resources, not handling our own projects.
