Switch Distribution Box Product Description

Overview

This product applies to terminal of AC 50Hz (or 60Hz), rated operating Voltage up to 400V and rated current up to 63A, equipped with various modular electric for functions of electric energy distribution, control, (short circuit, overload, earth leakage, over-voltage). Indication Lights: These provide visual availability and status of mains power supply. Together, they make sure the electrical power distribution box works well and safely. Smart DB boxes have extra parts like energy monitoring units and communication modules. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 - wherever passive distribution boxes are required. When the main power supply fails or fails, the main power supply can be switched to the backup power supply through the transfer switch. Our products range includes simple flush-mounted switch boxes to surface-mounted boxes for indoor use, as well as high-end IP65 junction boxes for use in wet areas. Kopp also offers accessories such as spring covers, screws for switch boxes, and cavity wall switch boxes and plaster adjustment.
