# **Tajikistan and Foreign Fiber Optic Communication**

## Overview

---

A fiber-optic line to China is being laid in Tajikistan, which will directly connect the telecommunications networks of the two countries, which will increase the speed and reduce the cost of the Internet in the Republic of Tajikistan. Tajikistan's ICT sector is playing an increasingly important role in the country's modernization agenda, driven by the Concept for Digital Economy 2019–2040 and the new "Years of Digital Economy and Innovation 2025–2030" program. In 2025, Tajiktelecom laid 536 km of fiber-optic lines and expanded the network to 3,459 km. 2 million population—as of early 2024, primarily through mobile broadband amid challenging mountainous terrain and economic constraints.
