# **Tax Incentives for Cybersecurity Equipment**

## Overview

---

893, Section 179 tax breaks, and SBA grants—that can help utilities, governments, and small businesses invest in stronger digital infrastructure. The State and Local Cybersecurity Grant Program (SLCGP) helps eligible entities address cybersecurity risks and threats to information systems owned or operated by—or on behalf of—state, local, and territorial (SLT) governments. Tax credits for cybersecurity represent a convergence of public policy objectives and business imperatives. Governments recognize that cyber threats pose systemic risks to economic stability, critical infrastructure, and national security. Data centers investing over \$400 million and creating 20 jobs with an average annual compensation of \$40,000 can receive tax abatements for up to 30 years.
