The fiber optic router is connected in the room

Overview

The fiber is connected to an Optical Network Terminal (ONT) inside or outside your home. Openreach are installing fibre ONT to my home this week and the easiest place for the ONT is in a different room in my house to the existing router location. My current setup has the router and "ethernet wired PC" in the same room connected by wired ethernet as this PC has no wifi functionality. Post-installation optimization matters —proper router placement, firmware updates, and network security configuration maximize your fiber internet investment. A fiber media converter, also known as a fiber to Ethernet converter, allows you to convert typical copper Ethernet cable (e.
