# **Trailer conversion to lift bridge**

## Overview

---

Need a heavy-duty bridge without breaking the bank?

In this video, we tackle a DIY budget-friendly bridge build using an old RV trailer frame to span a drainage ditch. With some creative engineering and a bit of welding, we transform this salvaged frame into a sturdy . In this video, we're adding the wood joists for additional support before finally setting the bridge in place. We had to make some last-minute adjustments because Thomas admits the "build plans" are stored in his head, not on paper. Where is the best place to buy an old used 45ft aluminum semi flatbed trailer?

I have a pond with a bridge that needs to be upgraded or completely replaced. 305 t In December 2025, KAHL SCHWERLAST GmbH successfully executed a highly complex heavy-lift project to support the energy supply infrastructure in North Rhine-Westphalia. Supro Trailer Produce the Girder bridge for the small and heavy cargo transport, such as the Transformer.
