Utility Model Patent for Optical Cable

Utility Model Patent for Optical Cable

U.S. Patent Application for OPTICAL FIBER CABLE Patent

In addition, when the number of the drop optical cables is the same, the diameter of the present optical fiber cable can be made smaller than that of the optical cable in which the drop optical

Google Patents

Search and read the full text of patents from around the world with Google Patents, and find prior art in our index of non-patent literature.

US9335503B2

A fiber optic cable includes an optical fiber, a strength layer surrounding the optical fiber, and an outer jacket surrounding the strength layer. The strength layer includes a matrix material in

OPTICAL CABLE

OPTICAL CABLE - Patent 4325265 In each of the optical units, a plurality of optical fibers are accommodated in a tubular member. The

plurality of optical fibers may be

OPTICAL FIBER CABLE AND METHOD FOR MANUFACTURING OPTICAL FIBER CABLE

The present disclosure relates to an optical fiber cable and a method for manufacturing the optical fiber cable. The present application is based on and claims priority to Japanese Patent

Utility optical fiber cable

Although the commercially available optical fiber cables fulfill specific needs, there is a demand for a sim- plistic optical fiber cable which may be used as a utility cable and which need not include some

U.S. Patent Application for SYSTEMS AND METHODS FOR

Systems and methods for proactively identifying and surfacing relevant content on an electronic device with a touch-sensitive display are disclosed herein. In one aspect, a method includes presenting

Optical fiber patented technology retrieval search results

This page includes the patent name, patent number, legal status, invention/applicant, technical efficacy and accompanying drawings of Optical fiber-related invention patents and utility model patents,

Patent Alternatives: When to Consider a Utility Model , ip21

Patent Alternatives: When to Consider a Utility Model Most people in the UK are familiar with 2 ways of protecting their ideas: either through a Patent to protect how something works or through a

Telecommunications cable patented technology retrieval search

The invention relates to a telecommunications cable module comprising at least one optical fiber surrounded by a protective skin of a thermoplastic elastomer having flexible diol segments, and in

US6901191B2

The fiber optic cable may exclude a grease or a grease-like composition being in contact with the at least one bundle for filling interstices of the cable thereby blocking water from flowing through the

Utility models

In general, compared with patents, utility model systems require compliance with less stringent requirements (for example, lower level of inventive step), have simpler procedures and offer shorter

DPMA , Utility Model Protection

We have compiled general information about utility model and topography protection on our website. Detailed information is also available in our "Utility Models" brochure.

Search for patents , USPTO

Find existing patents, published patent applications, and other published patent documentation.

Optical fiber cable patented technology retrieval search results

Here, methods of using OTFS pilot symbol waveform bursts to automatically produce a detailed 2D model of the channel state are presented. This 2 D channel state can then be used to optimize data

Patents and Utility Models , Overlapping Intellectual Property Rights

According to WIPO, utility model protection is generally considered suitable for protecting inventions, small improvements, and adaptations of existing products or that have a short

U.S. Patent Application for OPTICAL FIBER CABLE Patent

An optical fiber cable of the present disclosure is formed by assembling a plurality of drop optical cables, and each of the drop optical cables has a structure where at least one or more optical

U.S. Patent for Optical fiber cable and method of forming an optical

An optical fiber cable includes a cable jacket, a plurality of buffer tubes arranged on the inside of the cable jacket, a plurality of optical fibers arranged on the inside of each buffer tube, and a

Information on utility models: Bayern Innovativ

What is a utility model? A utility model is an industrial property right that - similar to a patent - protects technical inventions. It is often referred to as a "petty patent" and offers faster and more cost-effective

INTRODUCTION TO PATENT, UTILITY MODEL AND INDUSTRIAL

"utility model" means any form, configuration or disposition of elements of some appliance, working tools and implements as articles of everyday use, electrical and electronic circuitry, instrument, handicraft,

OCC Patent Information

This page is intended to provide notice under 35 U.S.C. § 287 (a) for the products and associated patents listed below. Additional patents may be marked on products or product packaging.

1

Given the lack of examination, obtaining utility models is generally viewed as faster and cheaper than obtaining patents. This combination of speed

A utility model patent certificate for an integrated socket of optical

A utility model patent certificate for an integrated socket of optical fiber and network cable

OPTICAL CABLE

An optical cable has a large bandwidth and is heavy and bulky compared to an existing copper cable and thus is very advantageous to build an ultra-high-speed transmission network.

Search

IP searches are specifically important before filing a utility model application, since a utility model is entered into the official Register without

Utility Models

Services Utility Models The German Patent and Trade Mark Office publishes application forms, information leaflets and other forms concerning IP applications. Some of the documents are

Utility model as alternative to patent

Utility models during infringement proceedings In addition to these basic differences, the utility model has many further features which mean that it is a very valuable property right and can be employed
