Vertical Connecting Support for Cable Trays

Overview

The vertical bend is pushed over the end of the cable tray and screwed tight. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. The vertical cable ladders STL, STM and STIC meet the exact specifications and definitions of DIN 4102 Part 12 of November 1998, such as height of the cable ladder / tray, width of the cable ladder/ tray, proportion of holes in the cable tray, distance between rungs of the cable ladder, material. Hubbell Take Off Support provides the contractor, engineer, end user a completed BOM, including all related products, counts, symbol legends and information required to price a project.

Vertical Connecting Support for Cable Trays

Support Systems for Cable Trays & Busbars

Reliable support systems for cable tray and busbars, designed for electrical and mechanical installations. Available in corrosion-resistant coatings.
