What wireless router is best for a 100Mbps fiber optic connection

Overview

Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. For budget-conscious households, the TP-Link Archer AX55 delivers reliable Wi-Fi 6 performance without the premium price. Searching for the ideal WiFi router to match your 100 Mbps internet speed?

You're in the right place! In this guide, we'll explore the top routers tailored to deliver optimal performance for your 100 Mbps connection. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. This table should be useful so you can compare each of my top picks and see the differences in their features, price, and suitability.
